

The Old Wycliffian Society together with the Wycliffe Watermen are pleased to promote

# OW Record Breaking Attempt for Charity

## Saturday 4th February 2006 Wycliffe Sculling Centre

situated at Saul Junction on the Berkeley Canal

On Saturday 4th February 2006 at Wycliffe College Sculling Centre, Old Wycliffian Peter Daniels, will be attempting to break his own world record of 7 hours and 54 minutes for a 100,000m (100km) row on a rowing machine.

Training began in earnest in September 2005 for 66 year-old Peter, who will be using one of Wycliffe's 'Concept 2' Ergo rowing machines.

This tremendous feat is being attempted to raise money for Wycliffe Watermen and various other worthwhile charities.

Please show your support for his dedication and determination and help Peter to achieve, not only a new World Record, but hopefully a sizeable sum for charity too! You can make your donation on the form provided overleaf, thank you.
