30 December 2007

et the good times roll, we said last March when we launched RowingVoice, the free and independent magazine which you can read on the web or print out in the comfort of your own home. But there is no such thing, goes the most famous cliché in journalism, as a free lunch. The good times will continue for an independent RowingVoice — but after this issue the good times will no longer be free.

Our aim in publishing the Voice is to provide unfettered reporting on domestic and international rowing and comment and analysis on the rowing issues of the day, at a depth no longer available, sadly, in the national press and seldom to be found in rowing publications.

During 2007 we have shown how this can be done on a variety of topics — the conflicting demands of universities and the national team, the ins and outs of the ARA's competition review, the Russian doping scandal in Munich. We have given comprehensive coverage of major regattas, including four live editions from the 2007 World Championships.

2008 for £20 — details page 16

We have been up the Stour and down the Nile, and remembered those who have crossed the bar. We have published words and pictures from many of the best writers and photographers in the business, and allowed ranters to let off steam. The editors would like to thank all of them — nobody, including ourselves, has received a penny for their trouble.

To continue and improve upon this, we must set Voice on a business footing. We shall keep our editorial independence, but we must now ask those who enjoy Voice as well as those who have already offered us their support to pay a modest annual subscription, or to buy advertising.

There is an exciting year ahead, and we aim to give our readers and advertisers a service that, for the most part, they cannot get on the web or printed page. We will cover the big events, provide results, analyse the big issues, and publish people's inspiration and ideas from the wider cultural, future and past environs of rowing.

With your help, we will change the pace according to the action from Putney to Beijing.

Sculling titans lock horns

The explosive re-emergence of Rob Waddell, the Sydney Olympic sculling champion, into a head-to-head with three-times world champion Mahe Drysdale gives New Zealand its very own Ali versus Frazer confrontation, as the New Zealand Herald put it. It could also give the NZ selectors a headache and could end in disaster if it becomes a bout unto death.

Here we have, arguably, the two best single scullers in the world vying for one seat in Beijing. It is reminiscent of the great American imbroglio of 1984, when four guys tried for the single place in a brutal contest that knocked the stuffing out of

most of them before anyone got to the Olympics. The story of Tiff Wood, John Biglow, Joe Bouscaren, Brad Lewis and their struggle for glory was dramatically told in David Halberstam's The Amateurs. Whereas Wood probably started out as favourite for the slot, he ended up as spare man in the US team. Biglow, like Wood a world bronze medal winner at a time when gold and silver were reserved for the Finn Karppinen and the German Kolbe, eventually won the trial. Bouscaren tried for selection in the double with Charlie Altekruse, and failed. The broody Californian, Lewis, won the doubles trial with Paul Enquist. And you

FOREIGN NEWS

ROWING IN ROTTERDAM

The number of 2000m courses within easy reach of GB clubs looks set to increase, with the Netherlands planning a new manmade lake in Rotterdam. Government plans to create more water storage capacity meshed with the city's ambition to become European City of Sports in 2010, and funding has been found to dig. FISA's course designer Svetla Otzetova, who has been involved in all the major new rowing courses of the last decade, will steer the plans for the new lake. It is hoped that the Rotterdam course will provide a training area for the 22 clubs of the city. This would move crews off Rotterdam's busy canals, where they currently risk being run over by commercial freight barges. Once built, Rotterdam plans to bid for a FISA regatta and eventually a worlds.

SARA SWAPS

4th November saw several changes on the Scottish Amateur Rowing Association executive. Former vice-president Mike Haggerty becomes an ordinary member (with responsibility for communication), swapping with Mike Morrice, who becomes vp in charge of participation. Iain Somerside was defeated by Ian 'Chalky' White, who now becomes vp for performance in Somerside's place. Following the elections, Graeme Stewart and Ian Ratcliff were co-opted on as governance and association secretary respectively. Ailie Ord has resigned as editor of 'Rowing Action', SARA's in-house magazine.

« know what? In Los Angeles Biglow finished fourth behind Karppinen, Kolbe and Mills of Canada. Lewis and Enquist won M2x gold.

o back to Beijing. Waddell left Sydney in 2000 with gold round his neck and a distinguished future as a grinder aboard NZ's America's Cup yacht. Drysdale, meanwhile, saw him on TV and said to himself 'I could do that.' He began in a 2001 'development eight' which saw great success, came fifth in the coxless four in Athens, and then determined to try the single, defying his federation and joining Tideway Scullers to train along side Alan Campbell under Bill Barry.

The rest is already history – world titles in 2005, 2006 and 2007 and, like Waddell, a super bloke to have as champion. This autumn Drysdale was, as he is every year, sculling on the Thames. Before returning home, he won the Head of the Charles in Boston, the Wingfields and the Fours Head in London, the Armada Cup in Berne and the Silver Sculls in Turin.

And then, on 16th December at Karapiro, he lost to Waddell by two lengths. Furthermore, the early leader was Eric Murray of the NZ coxless four, before Nathan Cohen took clear water at the front. Waddell unleashed a 'fear-some sprint' in the last 500 and went away, winning in 39.8 seconds — three seconds over Drysdale's world's best time. Phew!

efore this race, Waddell set an unofficial 5km ergo record of 14:58.03 — the first to get under 15 minutes. Drysdale, meanwhile, cut 7 seconds off his personal best to 15:11, only 36 hours after he stepped off the plane from Heathrow.

So the scene is set for a scintillating summer in NZ as the titans flex their muscles, the selectors shadow box, and the public drools. Never before has Kiwi small-boat rowing been so strong, and never before has there been such an opportunity to screw up. Will there be a double? Will there be a quad? Is NZ already engraved on the Beijing singles gold medal?

Rowing New Zealand's high performance

manager, Andrew Matheson, says that the pair's progress will be monitored with out-of-water testing and regattas throughout the season. 'They're just coming through their base training and a lot of the harder racing when we'll really get a feel of where they're at, will be later in the season,' he told the NZ Herald. 'All the athletes work through our selection process which includes some more erg testing and a specific small boat regatta we have in late January, then we move through to nationals and name our squad for trials, so there's still a long way to go and lots to do.' Nominations for Beijing go to the NZ Olympic Committee in March.

addell, aged 32, says his comeback had been driven by a strong desire to attend another Olympic Games. 'I'm not going to get in to the me-versus-Mahe thing too much. I came back because I want to be part of something positive in Beijing next year - that's my ultimate long-term goal. I thought, you're only young once and time whizzes by, and I've got another one, possibly two Games left in me.'

Drysdale is well aware of the dangers now facing him. He says he is treating Waddell's comeback as positive, as such a rival would bring the best out of him. 'I think where it does have the possibility of going pear-shaped is if we end up basically going for it (in the trial) in March and both of us have to come up and try to peak. That could play against us later on down the track and that's something that we've got to be really wary about. That's where the selectors have to be careful.'

We'll all be watching, along no doubt with Synec, Hacker, Tufte, Campbell and the bar at Tideway Scullers.

And here's a tip from Brad Lewis, the 1984 doubles Olympic champion, about fame and how to achieve it once you've won a gold medal in a sport which few recognise. All you have to do, he says when you're being paraded round the nation with all the other medallists, 'is stand just behind the gymnasts at any ceremony. The cameras go wherever they go.'

Women take wing...

... while Drysdale left high and dry.
Rachel Quarrell reports from the Tideway

Elise Laverick (right) triumphed in the revived Women's Wingfields Challenge three weeks ago, while the men's race slumped from a high-profile international battle to a morass of argument, ending in an anticlimactic row-over.

A women's race had been in existence until it died out some years ago. Its reinvention this year puts the female scullers on an equal footing with the men for the first time, with three challengers for the inaugural trophy.

Laverick, on Surrey, dashed off the start stroke for stroke with Debbie Flood, centre, and both soon quickly gained a strong lead over Middlesex starter Jess Eddie along the Putney moored boats. For a while Laverick and Flood converged, making umpire Bill Barry work, but then Laverick took up a strong position on the Surrey stream, and edged ahead.

By the Fulham Football Ground Laverick was a length up, taking a neat course around the corner, and she reached the Milepost in 4 minutes 52.2 seconds, narrowly clear water of Flood and several lengths ahead of Eddie. There were yells of encouragement from the following coaches at the Harrods wall, before Laverick's long smooth strokes helped her draw further away as a remnant of wash from the passing RNLI boat began to take its toll. Despite Flood's efforts, the result was assured. Flood's length and poise improved considerably at the Bandstand, and together with excellent steering around Barnes helped her close the gap a little.

"Elise caned me off the start, she stole my plan", said Flood afterwards. Laverick was relieved they had made it to the start line without being ill. "We were both just scraping through the last few days, hoping nobody would pull us out of racing", she said. "It's great for us to do something the boys always talk about. Women's rowing in this country has taken off."

An hour later New Zealand's triple world

champion, Mahe Drysdale, sculled over, blasting it to the Milepost before realising that he was off record pace in the slow conditions, and sauntering to the finish. The ignominious row-over came about after Alan Campbell dropped out from injury, and Ian Lawson and Mark Hunter refused to race. Both former Wingfields contestants, they withdrew in protest at the trophy, and by association the British Amateur Sculling Championship, being opened to a foreign contestant.

"I think it's a bit of a shame, I've spent just as much time in the UK as I have in New Zealand in the last few years", said the tall Kiwi. "I have two clubs: West End in New Zealand, and Tideway Scullers here. For them to say that [I'm ineligible to race] is a bit uncomfortable."

"We've seen the Wingfields as a way of raising the standard of sculling in this country", said race organiser Wade Hall-Craggs (see Hammer Smith, right). "We term a Brit someone who has done a lot of sculling in this country, and Mahe has done that. We consider everyone on a case by case basis, and always reserve the right to refuse or accept entries." The race committee is considering separating the titles of the Wingfields and the British championship, to avoid future problems, but has not yet come to a decision.

"Of course I would have raced if I could", said Campbell, on hand to support his friend. "He's a member of a British club." So would Elise Laverick cry off if Ekaterina Karsten was allowed to race? "No way", she says. "British women aren't scared of racing the best in the world."

Jess Eddie, Elise Laverick and Debbie Flood rest under Chiswick Bridge after racing four and a quarter miles.

Voices off

Wade in the water...

Drinkers in the Duke's Head, after watching Mahe Drysdale wrestling with the waves set up by the RNLI who were hanging around to rescue him if he should fall in, tell me that the previous time a sculler rowed over in the Wingfields was 1911. when Wally Kinnear couldn't find a challenger. Not that you usually have to look too hard for challengers in this millions-of-years-old race which describes itself as the British Amateur Sculling Championship and Championship of the Thames. So Tideway Sculler Drysdale is now the British Amateur Sculling Champ and the Champ of the Thames after previous winner Ian Lawson and Leander captain Mark Hunter withdrew on the grounds that the amiable world sculling champion (and record holder in the Head of Fours) was not British enough to race on the Tideway. (Nice touch, this — the Leander press officer thought Lawson and Hunter had withdrawn through indisposition).

The trouble with Drysdale, according to the pinkos, is that he's not British enough, having split his time in half between New Zealand whose passport he holds and for which he rows, and England (not taking into account that his grandfather was born in Manchester, his mother holds a British passport, or the seven years he lived here as a kid.). Drysdale is certainly not the first British passport holder to have an entry accepted for the Wingfields - Grun (1884) was German, Fairbairn (1887) Australian, Howell (1897) American, Natvig (1932) Norwegian, Blue (1952) Canadian, Justicz (1958) Czech, and Walker (1968) Australian. The point at issue seems to be domicile. Some on this list were passing through, studying at university or the like. Other foreign passport holders have been turned down: Drysdale (2003), Towey (1998), Williamson (1961), McVilly (1913).

But the name of the game in the Wingfields, if not to make up the rules as you go along, seems to be to interpret them » « on the hoof. The committee — consisting of all living past winners — apparently accepted Drysdale's 2007 entry. When Hammer asked Lawson what happened at the meeting, he confessed to not attending it. Nobody has a straight answer to the question 'what does the rule say?' Replies are prefaced by 'something like...'

And another thing. I seem to remember the date of the Wingfields (and the Scullers Head) being adjusted to fit in better with the GB squad training. So where is the squad support for the Wingfields? We know where Alan Campbell was — nursing an injury back to health, otherwise he'd have been there like a shot. But why were Matt Wells and Stephen Rowbotham out in a double on the same day? Why are the pinkos content to allow TSS to have the race all their own way? Where do the national coaches stand? Someone will tell us that Putney to Mortlake is an unfair course next!

I sympathise with 'Wade in the Water' Hall-Craggs, who does a great job to keep this rickety race going from his power base at Maiden Castle in the far northeast. No doubt he was after was a Campbell versus Drysdale contest. He was, of course, saved from total debacle by his initiation of the first Wingfields for women, along with a marvellous new trophy, replica of the men's, supplied by the worldwide Wingfields family, some of whom turned up to witness it. Elise Laverick, the first female Wingfields winner, said 'bring them on' when asked if she'd mind the likes of Ekaterina Karsten to race. But I don't think Karsten would pass a committee hearing.

We woz robbed

Ho, ho, ho. The switch of the second and third rounds of next year's world cup between Lucerne and Poznan is due to Swiss TV's decision to film football instead of rowing on June 21-22. The second round will now be in Lucerne on May 30 to June 1 and the final round will be in Poznan on June 20-22.

It really is about time rowing, and in particular, television contractors, stopped being kicked around the park by kickers of round balls who »

NEWS

PAINTINGS PAST & PRESENT

Annabel Eyres, founder and artist of clothing company Rock The Boat, has been holding an exhibition of her artistic works, including the glorious portrait of CUBC and Radley coaching legend Donald Legget (*above*). The exhibition is being held at Radley College, Abingdon, and can be seen until at least 2nd January 2008 by arrangement with the college or Annabel.

ADAPTIVES INTERNATIONAL

The recent Home International Regatta management meeting in Cardiff confirmed the date of next year's regatta as 2nd August, and made two big changes. The event, which will be held on the 1500m course at Cardiff Bay, sees the men's and women's coxed fours categories dropped, to become Under-23 coxless fours for the next three years. The Home Nations teams will now also include 500m trunk and arms adaptive singles for men and women, a change likely to help GB's chances of developing new Paralympic athletes.

NEW WORLD RECORD

Windsor Boys School broke their own world 100km ergometer record on 28th November, carving 2.5 minutes off their original mark. The 10-man team: Sean Corbett, Toby Johncox, Ashley Towne, Matthew Hart, Michael Hanniford, Joshua Deeley, Jack Jarratt, Ed Fousett, Sam Tyrrell and Sergei Kleshnev, started by rowing 20 strokes each in turn, then brought it down to 10, finishing in four hours, 45 minutes and 48 seconds. Funds raised will be split between Great Ormond Street Hospital and the WBS boat club.

ALL CHANGE

A number of winter races have been rescheduled due to cancellations or clashes. Wallingford **Head** hopes to go ahead on 13th January, while Monmouth Winter Head is planning on using 20th January. Half-term necessitated some swaps: Hampton Head and the Warrington **Head of the Mersey** are now on 2nd February, while **Henley Junior Head** has gone the other way, and is now on 9th February. The Head of the Avon Gorge has shifted back a week to 13th January, and the Weybridge Winter Head has moved back seven weeks, from March to its new date of 19th January. The Tyne Head has also slid back a couple of weeks from March, and is now to be held on 16th February, with Worcester Head a week later on 23rd February. In March we now have the **National** Junior Sculling Head the day before the sweep Schools Head, with the scullers taking to the water in Henley on Monday 3rd March and the sweep boats on the Tideway on Tuesday 4th.

MAXIMISING THE MAGIC

Marlow's Longridge Boating Centre, the training centre for Britain's women when they want to do miles of steady-state water work, has won a £80,000 award from the Big Lottery Fund's regional good-causes competition.

Longridge went up against the Basingstoke Choral Society, which was also bidding for the money, and won a phone-in competition by 10,939 votes to 1,858. Their bid, "Maximising the Longridge Magic", includes plans to create a new adventure playground at the centre, and string a rope walk over the river for children to reach an island used for adventure activities.

Unfortunately "Kids Get Wet", a similar bid by a group wanting to increase water-based activities in the Highlands of Scotland, failed to gather enough votes to win its own £80,000. The project lost out by 1511 votes to 7641 to the "Pride, Respect and Ambition" bid from Perth Grammar School.

GET YOUR ID STRAIGHT

Do you row somewhere other than in the southeast of England? Thinking of visiting any part of the River Thames this winter? Perhaps not, given its propensity to be red-boarded at the drop of a hat. However, if you're an off-Thames rower who will be using it this year, remember you'll need not only an Environment Agency licence (new licences begin on 1st January 2008), but also an approved ARA boat-ID code (three letters, three numbers).

The Tideway scheme has now been extended to the whole of the Thames, and does also apply to coaching launches. ●

FISA REWARD THE GREAT

The rowing world's governing body was in a celebratory mood at the November FISA Coaches Conference, dishing out its annual awards, most of them to Britons or Australians. Chief coach of GB women and lightweights, the Australian-born Paul Thompson, bagged the big one: FISA Coach of the Year, after his world champion quad sealed what has become their third gold in a row. The quad (Katherine Grainger, Frances Houghton, Debbie Flood and Annie Vernon) also won, collecting the women's team award, while the men's award went to Australians Drew Ginn and Duncan Free, after their second pairs gold in a row. The Distinguished Service Award went to France's Michel Doutre, for rowing development, especially in Africa.

FISA Coach of the Year, the first ten winners: Bent Jensen (1998), Al Morrow (1999), Jurgen Grobler (2000), Jutta Lau (2001), Mike Spracklen (2002), Giuseppe La Mura (2003), Mike Teti (2004), Dick Tonks (2005), Gianni Postiglione (2006), Paul Thompson (2007).

And Katherine Grainger collected her second award of the season in early December, receiving the UK Sport 'Champion of Champions' trophy for fair play and being a good role model, at the Sports Journalists Association annual lunch. British Association of Rowing Journalists officers Mike Rosewell, Chris Dodd and Mike Haggerty were present to witness Grainger's achievement, and her speech, as she told the assembled journalists of her aim to help Britain win its first ever women's Olympic gold medal in Beijing.

NEW AT THE ROYAL

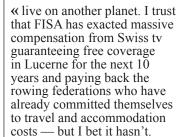

Henley Royal Regatta is full to the gunwales with Stewards at the moment, so elected no new members of the great and the good to their ranks this year. However, they have secured agreement from Prince Charles to rename the Men's Quadruple Sculls the Prince of Wales Challenge Cup, leaving the Double Sculls the only trophy without a specific name. (The Redgrave Doubles, perhaps, given Sir Steve's continued hold, with Adam Clift, on the Barrier record for that event.) HRR also announced the re-election of the entire Committee of Management, and donations to the Stewards Charitable Trust totalling £532,250.

ROWING TO FRANCE

Forty-five Reading RC juniors rowed the English Channel on Sunday 18th November - without leaving the Thames. The group of coxed quads rowed 34 km nonstop on their local reach, the equivalent distance to a Dover-Calais crossing. As a result of the marathon they have raised in excess of £2000 for BBC Children in Need.

BUYING TRENT

Trent Rowing Club in Burton has announced the completed purchase of the freehold of their Stapenhill Road premises (below), which are 100 years old in 2007. The original boathouse, which cost "nearly £400" to build a century ago, was briefly taken over by the War Department during the second World War, and a new 99-year lease was negotiated in 1962. In 2000 negotiations began to try and buy the freehold, and after a successful agreement with landlords Mitchells and Butlers (Property) Ltd in 2006, contracts were exchanged in July 2007. ●

To be fair, though, rowing has gained some advantages over the years at soccer's expense. For example, what would have happened to Spurs if they had signed Tim Foster, as Foster always claims they should have done? Or if Martin Cross had gone to his beloved West Ham? Or if Mike Rosewell's dad had not insisted that he go to be a revolting student at LSE instead of signing for Tranmere Rovers? (Who?) Remember, too, that Rangers, Lazio, Flamenco and several other soccer clubs, particularly in Italy and Brazil, were rowing clubs first. Remember, too, that in 1901 Calcutta Rowing Club beat Calcutta Football Club 2-1 at their own game. Ha! By the way, this switch also means that the Olympic qualification regatta will take place in Poznan on June 14-15.

Di for London, and London for Di

Di Ellis, chairman of the ARA, embarrassed London Rowing Club when she unveiled the plaque for their extended premises on October 3 by revealing that ten years ago, 'I and several other women applied to join London, but were turned down.' Now the club is fully open to women, and already Matilde Pauls has got herself on the club's latest international honours board in the 2007 GB lightweight quad. The club was further caught by Old Father Thames on the night of the party, when the tide deposited a layer of mud over the ground floor, and guests could not visit some of the new facilities. But the first two phases of the development have added proper women's changing rooms, disabled access and a splendid crew room to the Putney premises. Watercolours of three more presidents were unveiled. The current president, Mike Williams, was a little shamefaced about his, claiming that he posed on the morning after the night before.

Spectre of European juniors

The 2009 European Rowing Championships have been attributed to Brest. Before you all rush off to buy tickets to France, this Brest is in Belarus (remember the Home Countries in Ghent when you thought you were going to Gwent?). Next year's championships are in Athens at the Skinias Olympic course (September 19-21). Strathclyde is among several places looking at 2010, when there may be a change of date because of the seasonally late timing of the world championships in Karapiro, New Zealand. And for the next piece of madness, the European rowing federations (29 present out of 43 eligible at their assembly in Poznan) discussed setting up a European junior championships. They voted to assess needs and hurdles. Please may the hurdles prevail.

Stirling and Wright stuff

Congratulations to David Chipperfield for winning the Stirling Prize for his superb Museum of Modern Literature at Marbach am Neckar, Germany. Chipperfield is the architect of the River & Rowing Museum, which was shortlisted for the prize ten years ago.

The most exciting rowing-architecture story of late, however, is the opening of a new boathouse designed by Frank Lloyd Wright in Buffalo, New York. Wright designed the building for the University of Wisconsin 100 years ago, but it was never built. Now it graces the Niagara River as a result of a campaign by Buffalo oarsmen to raise funds and get it built, nearly 50 years after Wright's death.

Wright, who died in 1959, redrew his plan in 1930 to change the original stucco exterior to concrete. Frank Lloyd Wright's Rowing Boathouse Corporation raised \$5.5 million and engaged a Wright apprentice, Anthony Puttnam, to supervise construction. The bulk of the money came from a tv writer and producer, Tom Fontana. His parents, Charles and Marie, coached in Buffalo for decades, and the boathouse is named after them. Several Hollywood figures » (to p11)

NEW BUOYS - GOOD BUOYS?

For those who didn't make it to the Tideway on 3rd or 4th November in a four of some description, there are two new navigation buoys on the reach, put in during the early autumn. A series up on Syon Reach and above UL are unlikely to disturb the occasional Tideway user, but a handful are on the Championship Course itself, meaning sudden stops for the unbriefed and unwary. A series between Chiswick and Hammersmith bridges mark the edge of the 'fairway' (the central navigation channel), with Surreyside buoys being red and Middlesex-side buoys being green.

The Port of London Authority's official Notice to Mariners now says: "When proceeding against the stream (either flood or ebb) rowers are to remain as close to the bank as is safe and practical and are to pass between the red buoys and the Surrey bank, and the green buoys and the Middlesex bank. If rowing boats stray out into the navigation channel, the buoys are an indication of the need to move back inshore as soon as possible. When proceeding with the tidal stream, the buoys are an indication of the limits of the navigation channel."

Furthermore, the buoys in the crossing zones around Chiswick Steps and below Chiswick Bridge mark the suggested crossing points. with yellow stripes on the bank marking out the limits of the zones. Lots to learn for those who don't know the Tideway well, so if the floods come up and you whizz off to the Tideway for training, make sure you're well briefed by someone local and knowledgeable, and do take a printout of the PLA maps, linked from the Tideway Slug and the TRRC website. It's also worth taking a peek over your shoulder at times: the one near Barnes Bridge looks at first sight to be very near the centre of the river, and most of them have drifted at times, causing hazards to the careless.

RINGING THE CHANGES

A change in the way 0870 numbers work is prompting the ARA to drop the service it has run for a number of years, which allowed clubs to have 0870 versions of their club officials' numbers for publication. The free redirection service added privacy for volunteer officials, and helped continuity between years, but alterations in the telecoms rules mean this can no longer be done for free.

The ARA has investigated other redirection options, but there is no simple alternative, although a phone-over-internet service is being investigated. Clubs have been asked to check which phone numbers they wish to have published in the 2008 Almanack and online. The change also affects the ARA itself, which will

no longer be using its 0870 number from the New Year. The direct-dial number, 020-8237-6700, will be used exclusively from that point on.

LOOK AHEAD AT THE MUSEUM

There are several upcoming events of interest to oarspersons at the River and Rowing Museum in Henley during 2008.

On Saturday 9th February the Queen's Swan Marker David Barber delivers a talk on his experiences marking the Thames swans, while Saturday 8th March has a lecture on "Flood risk in the Thames basin - is it increasing?"

There are also two exihibitions: Martin Ireland's "Back to the River" collection including paintings of Tideway rowing (2nd February to 14th April 2008), and "The Henley Royal Regatta" by Chris Gollon, depicting the beauty and pain of sport (10th May to 6th July 2008).

DRYSDALE & KARSTEN WIN ARMADA

Mahe Drysdale followed his Head of the Charles victory and Wingfields row-over with a half-minute win over Andre Vonarburg a few days later in the Armada Cup in Switzerland. The Kiwi successfully defended his 2006 title in the 9km mass-start race, and was accompanied to the podium by Ekaterina Karsten, who won the women's race. Last year the world W1x champion was defeated in Switzerland by Russia's Joulia Levina, and this year was almost as close. On the finishing line American sculler Michelle Guerette was just 2 seconds behind Karsten, but the Belarussian took the title.

A large half-term UK contingent of students and coaches from Radley, Hampton and Headington did well. Francis Highton and Max Thomas (both Hampton) were second and third respectively in the JM16 singles, with several more of their squad just seconds behind. Lottie Howard-Merrill (Headington) and Fiona Schlesinger (LEH) won silver and bronze respectively in the JW18 singles, with Headington's Maud Van den Broecke chasing them hard. Best of all, LEH took a clean sweep in the JW16 singles, with Amber Anderson, Sarah Perkins and Lauren Bruce the first three scullers home.

FORUM 2008

Next year's Rowing History Forum will take place in Mystic Seaport, USA, on Sunday March 9th 2008, with the special guest William Becklean, cox of the USA's 1956 Olympic gold medal VIII. Visit the RowHistory website at http://www.rowinghistory.net/ for details.

£496

How much did it cost to join your local rowing club?

Rachel Quarrell looks into what clubs around the country are charging

ow much does it cost to row? It's the one question none of us, talk-Ling to a potential new recruit, wants to answer. You've just spent a couple of hours out on the river, on a Saturday morning. A glorious sunny (but cold) day, pretty good water for once, and the crew was going well. Sitting at two was someone who has never rowed before. You talked them through the stroke on an erg last week and earlier in the morning, maybe did a bit of work in a bank-tub, in a rowing tank, or showed them some video. You've given them a really good introduction to the sport, and now they've just finished their first ever real outing. Luck was with you, the boat was reasonably balanced and even the weather played fair.

If you've done your job as captain, coach or cox well enough, they've loved it. Eyes shining, coming off the water feeling fit, healthy, and as if they've achieved enough to become the next Steve Redgrave or Katherine Grainger. They're asking about how to fit themselves out with the right kind of lycra kit, bubbling about that final 10-stroke burst (at 24, but it felt like 50 to them), and can't wait for the next outing. You've got them hooked, they've caught the rowing bug.

"So, how much will it cost to join the club?"

Silence. A small cough. "Well....."

Then you do pluck up the courage to answer, reactions will vary, for many reasons. Number one depends on their own sporting experience. If they've cycled seriously, swum, or are an aerobics or kickboxing junkie, you've got no problem. Used to buying expensive kit, or paying several pounds per session, there's a way to phrase the difficult answer about membership subs which makes it sound pretty cheap. After all, you can tell them about clothing costs, race entry fees and training camps, later, once they've been to a few club parties. Divided up, £200-£400 a year for several sessions a week doesn't sound too bad at all. Throw in free gym use, a crew automatically checking on whether you're training or not, and it is for many an ideal sport for which they're prepared to pay fair rates. There are converts to competitive rowing everywhere in the world.

But others will be put off. Particularly those we really want to convert - the armchair athletes, recreational basketball players, and those whose most chronic exertion to date has been a bit

of kickabout footy in the park on Sunday. Maybe they're worrying about their waistline, and have heard that rowing's the best way to slim it down. Perhaps they've been told they're a demon on the erg, and want to give water rowing a go. Or they're students who have never had to pay fair rates for sport before, after university subsidies. Some have even been brought by a friend, and are just going along for the ride. Even a hundred quid would be too much for them. For some people, the prospect of paying as much as an average flight to the USA, just to join the club, is offputting, and they're the ones who will spot you're planning to add on more costs once you have them signed up.

The Rowing Voice decided to investigate, purely on-line, what a range of UK clubs are charging for membership nowadays. We are fully aware that these are only the published costs, and some will no doubt be 6-12 months out of date, though we suspect few are much more off-beam than that. A few clubs who choose not to publish membership subs have had to be omitted, which does skew the picture, while incomplete information about discounts for those who pay annually or by direct debit, leaves some numbers as estimates. But despite this, interesting trends emerge, both about costs around the country, and in how clubs are going about generating income.

ADULTS FIRST

First item on the agenda was what it would cost most full adult members to join the club. Straight away it was obvious that cheapest of all are the coastal clubs. This may well be because with more robust equipment, and a simple but competitive race system, the majority of members do not cost the club much. We suspect that coastal coaches are not paid much, if at all, and there may be less pressure on obtaining costly premises which then need to be improved, maintained and insured. Scarborough was the most budget club, with a published annual subscription of £20. Guernsey just above, and then into the realm of small or less well-resourced clubs such as Tyne United, who started building a boathouse facility in April, and so are humbly begging their members for just £60 a year until that is finished. Goring Gap and Aberdyfi tied at £50 each, with Aberdyfi adding a cunning £1 per training session extra fee, which probably »

ADULT SUBSCRIPTIONS

These are undiscounted published full 2006 or 2007 adult subscriptions. Many memberships include extras, so this league table should not be taken as a final indication without further investigation.

FREEBIES

You should also consider what will be thrown in for free with your membership. Here one club clearly heads the game. Leander members not only receive a handful of passes to what has become one of the swishest Henley Royal Regatta socialising areas, but also earn reciprocal rights to a long list of sports and social clubs around the world - at the last count more than 30. But depending on your tastes, there are other useful extras on the market, beside those already mentioned.

Guernsey's sea-rowing club charges include boat mooring and Yacht Club membership. Evesham boasts squash and tennis course, plus table-tennis and snooker for those less athletically inclined. Warwick's rowing rubs shoulders with tennis, squash and bowls sections - which other UK boat club has ten Astroturf tennis courts, most of them floodlit?

Poplar's full membership includes automatic entry into the Crown Club, a private lottery paying cash prizes to members. This type of fund-raising is common, but often costs extra to join. Bedford rewards joiners with reduced entry fees to its four BRC ARA events each vear, a substantial discount for racing types. Quintin's annual subscription includes Chiswick **Sports Ground Association** membership, while several clubs pay your ARA, WARA or SARA membership fee for you.

Upper Thames rivals Leander with badges for the UTRC clubhouse and lawn during Henley Royal Regatta (best seats in the house at 1250m gone), but 7 clubs (London, Thames, Twickenham, Staines, Molesey, Kingston and Vesta) have a joint private social club - Remenham - next door. Which is of course closer to the finish line than Upper Thames, and handy for a well-timed 'Remenham Roar'.

« brings in quite a lot more income.

At the other end of the scale, London charges its elite senior members £492 annually. Steep as this is, it includes use of their magnificently rebuilt facilities, and members of the club become shareholders in the London Boat House Company Ltd. If you're not trialling for the elite group this drops to £396, or £330 if you're under-23. The coyest big club is most definitely Thames, which does not publish its current membership rates online. However, its 2004 full subs were £450 if you didn't pay early (confirmed by a peek at a cached Google page), and rates are unlikely to have dropped. Next are more Tideway clubs - Scullers, Vesta and Auriol Kensington - with Kingston, Nottingham, Molesey and Upper Thames just behind.

In the middle range, clubs without much competition in their own town can be surprisingly unambitious. Typical subscription rates hover around the £150-£250 mark for the majority. The average of all adult subscriptions for the clubs in the survey was £205, which compares extremely favourably with membership of a high-street gym, if that's the market you're competing against. Joining fees, which vary from £20 to over £200, do bump it up a bit, but mostly just have to be paid in the first year, but some clubs waive them or even offer a discount to new members. All makes rowing look a pretty good bet, for pounds laid out per hour spent exercising. And of course that doesn't include socialising, the great outdoors and the chance to win a pewter tankard once in a while. Who could resist?

WHAT ABOUT DISCOUNTS?

If you're canny, there are a lot of different ways to reduce your membership cost. Even for those who don't count as student, junior, senior citizen, under-23/25, unwaged or other welfare recipients, there are early-bird discounts for keenies willing to pony up the full amount on the right day. And it's the right way to get on the club treasurer's good side, which might come in handy later. Most clubs will chop off a month or so's costs if you are prepared to sign a lump-sum cheque right at the start of the season, while others offer discounts for those who offer to cox, coach or serve on a committee.

Some charge more for direct-debit, others give discounts for electronic payments (which probably depends on who the club is banking with). The biggest discounts come for those who optimistically pay for several years in advance (City of Oxford), or fancy the idea of life membership It's a bargain if you're young enough not to have any grey hairs, and comes in around £1000-£5000 depending on the club. Just pray you don't end up with a nasty back injury, move continents or fall out with the club's president....

Many boat clubs sensibly offer a reduced rate if you join after the beginning of the normal training year (often September), or a steadily diminishing subscription throughout the year. An even more cunning ploy (eg Vesta) is giving credit towards the following year for those who join late. That gives an incentive to stay more than one year, especially after rowing for a few regattas. University students, back for the summer, unsurprisingly get special deals - some very good. For other clubs, like Cambridge '99, the best way to hook punters is to quote a sub of £20-£30 per month, and offer a discount to those who sign up for a full year.

YOU DON'T LOOK YOUR AGE

UK clubs seem to agree about juniors, who tend to pay something in the region of half the adult sub, although a few inner-city clubs with good subsidy streams have managed to cut that down a bit more. The most impressive of those who quoted junior rates on their websites was Doncaster, which comes in at a stonking £zero if you're under 18, but their student sub (£24 per annum) is also a bit of a bargain. Notably clubs with a lot of juniors do tend to charge them more, not surprising as several have stellar racing records and employ professional coaches rather than parents. Kingston charges for full-time juniors, but drops it down for those who just want to row at weekends. Must be popular with those just starting the sport.

Mature students come in for short shrift generally, with popular clubs often only allowing a student discount under the age of 23. On the flip side Leander famously charge an age-related sub for members under 30 who are part of the elite training squad, whether students or not. Poplar Blackwall & District has an inventive approach to age discrimination: veteran members with more than 25 years at the club pay £12 per annum, while they count apprentice watermen as students, with a tasty discount from the full rate. Quite a few boaties distinguish between 'veteran' (which could mean over-27 under FISA rules) and 'aged 65+', which is sensible. At a handful of organisations there is the option of 'house' membership, less than full rate, for those who have put in more than 10 or so consecutive years with the club.

KEEP IT IN THE FAMILY

Mixed up in all of this is Family Membership. This is a very good trick which quite a lot of clubs pull. Say Bloggs Junior has a go at rowing through school or Project Oarsome, and likes it. Off they and mum trot to the Local Rowing Club, and ask about joining. Soon Little Bloggsy is rowing Saturday and Sunday, being watched on and off the water by at least one parent, and Bloggs Minor is gagging to have a go too. Mr Bloggs decides to give it a try »

« at the Pubs and Clubs Regatta, and is hooked.

"What about family membership?" wheedles the sagacious Club Treasurer. Most family rates include two adults and several children, or charge progressively less for each person living at the same postal address (no divorce in that county, then?) Picking out just a few, at Runcorn, Dart-Totnes, Norwich, Maidenhead and Henley the family fee is two adult memberships or less, and this is fairly standard.

"Oh go on then", agrees the fond parent, mentally making a note to start using the gym more. Within a few months they and their spouse are utterly embroiled in The Club: making cakes for the regatta, helping put up marquees and load trailers, then graduating to taking an IA course and joining the Vet B crew for the Veterans Head, while updating the Local RC website in their spare time. Youngest Bloggs becomes a demon cox, then grows too big, becomes a demon rower, and ends up in the Coupe team.

It doesn't take much....

GETTING THEM HOOKED

It may come as a surprise that not all rowing clubs yet run beginner's courses, though there is usually somewhere to start in most regions. This may be a marketing opportunity lost, as the BBC and other sports news sources do advocate talking to local clubs if you fancy giving sculling/sweep a go. Given the popularity of rowing after publicity films (think 'Gold Fever' in

2000), novice courses should be on the agenda, and being shouted about, more widely as we come into Olympic year.

The other option, though, is Pubs and Clubs Regattas, or corporate courses, both of which hold the potential to hook new members with deep business pockets (future sponsors?) Ro ing is a widely-used outward bound/teamwo activity, fostering all sorts of great character traits (we're all saints really). Many student clubs make extra dosh out of hosting corpora bonding days for their patrons' companies, o running erg competitions (with the advantage of fewer safety worries), both of which encor age older newcomers into the sport. Where probably falls down is in the follow-up - mo of us know someone who gave it a try, but ha a bad experience with an out-of-patience coa filthy weather or a capsize, and gave up because they just didn't think it was worthwhile

There is an alternative method here: in a few clubs (St Neots, Furnivall, Marlow and City of Oxford spring to mind) a 'gym membership' is available, entitling the user to cheap use of weights, ergs, machines and showers, while not letting them near the water. Evesham calls it a 'weightlifting' sub, Bradford 'fitness membership', Pengwern 'sports membership', and Durham Amateur has an indoor rowing squad. These tactics undercut the large commercial health clubs in a big way, and form a useful extra revenue strand.

JUST FOR FUN

The area we haven't examined yet is social/recreational membership. The two are in fact different: most clubs use 'social' to mean members who don't use boats or equipment, but are part of the club. This perfectly describes party-loving animals, proud but couch-potato mums, and those who don't mind running the bar but would not be seen dead in lycra. Social memberships come in at anything from £5 (Ross) to £212 (Leander) and sometimes don't include voting rights at the annual general meeting. The average is around the £25-£50 mark, reflecting the low level of wear and tear such members inflict on the facilities (apart from the beer taps, perhaps).

Recreational members, by comparison, are probably going to use equipment, but only occasionally and for fun (no being shouted at by coaches, please). This is, of course, a heresy in today's rowing climate, so it is only a few enlightened clubs which publish a recreational tariff. Worcester (about 2/3 full rates), Twickenham and Grosvenor (ditto), Wallingford and Minerva Bath (half), Newark and Kingston (no rate given) are amongst those who actively encourage recreational rowers, though some

add stern injunctions about allowing those with proper competitive ambitions to bag the best equipment first.

This is probably an option rowing clubs are missing out in: the odd recreational member could be a money-spinner, as long as they don't crash the club single too often. Plus recreational rowers swell the ranks of the armchair rowing supporters, whose interest we need to keep rowing from dwindling into a very marginal 'minor sport'. The cleverest clubs are those who manage to turn first-timers or occasional rowers into hardened addicts: guest outings (Minerva again), free trial months (Abingdon and Warrington) and temporary memberships (Weybridge, Burway, Hexham, Talkin' Tarn amongst others) being customary tactics.

And then there is 'country' membership, beloved of the traditional London clubs, and reflecting the lower needs of those who live too far away for regular commuting. This mostly means someone who is more than 70-100 miles away, or 40 miles if you're at Speares in Stratford. That statistic may make those in the more remote parts of the country, where there is just one rowing club within 200-300 miles, cough a bit.

Racking for larger boats can often be arranged.

Bridgnorth

£40

« Encouraging non-rowers to join is not restricted to the gym bunnies, either. For Broxbourne on the River Lea, with strong links to the non-rowing water fraternity, 'cruising membership' is available for those who like pottering up and down in motorboats, with moorings charged rather lucratively by the foot. Falcon in Oxford is actually a Rowing and Canoeing club, the two sports sharing facilities. The most unusual option is probably the 'bumps membership' quoted by Simoco in Cambridge, and probably matched by several other clubs in the town. £35 to join the club just for the annual and hugely popular Cambridge Town Bumps, which includes the requisite £10 entry fee.

ONLY THE SERIOUS NEED APPLY

Once you've picked your club, settled in, and started heading toward that Henley medal, the next step for the serious oarsperson is buying their own scull. But real estate on racks close to the river is a big extra to budget for. Allow more than £100 per rack, often double, especially in clubs with a high number of lone bladesmen. A selection of rack rents from some of the clubs surveyed is shown in the box here, left: bear in mind that prices also often reflect whether racks are indoor or not, and the pres-

sure on capacity.

At Tideway Scullers you have the option of cheaper racking under the arch of Chiswick Bridge, while Henley have the very elegant bonus of including the annual EA licence cost in their racking charge. (Doing the paperwork for you is clever, too). The Lea's sculling membership, the same as for full adult sweep rowers, includes the racking rent, a nice touch.

You must also consider race fees, either billed directly on entering, or with a surcharge from the club to cover trailing costs. Thames goes for a straight £16 a seat race entry, whatever the race, which builds in variation between HRR/ HWR and provincial regattas, but has the merit of being easy to plan and account for. Molesey's senior squad pay another £150 on top of their membership, covering race entries and transport: this is probably what other competitive rowers end up paying less visibly, throughout a race year. The spiralling cost of racing, which is partly a means of shuttling money between different clubs around the country (plus a bit into the pockets of marquee, PA and tankard retailers), is a topic on its own, but one which those who want to win know plenty about.

THE BIG PICTURE

It's fair to say that rowing costs are a complex game, with this article only able to provide a brief snapshot of the issues affecting them. There may even be some clubs where every single member is paying a slightly different rate, because of the many special deals available. It is encouraging to see how many clubs reward those who coach or cox with reduced fees. Interestingly, subscription rates don't seem to show any correlation to how many ARA (and potentially profit-making) events the club runs, putting the lie to the idea of a Head or Regatta as a handy way of spinning extra cash for new shells. This may be because multiple events are harder to obtain sponsorship for, so tend to break even, or could be due to the high number of cancellations lately. There is perhaps more correlation to recent construction projects, with the manoeuvre of asking current members to pay bigger subs after new boathouses and gyms have been built being a common ploy.

Two very big areas had to be left untouched by this survey, largely through lack of information. School rowing fees vary widely for many reasons. School rowing costs can be guessed at, but public data is too thin on the ground to draw any real conclusions.

For similar reasons, university rates have also been omitted. The university clubs of England,

Scotland and Wales vary hugely in their levels of subsidy, both from their parent institutions and from talent ID schemes. Some have mortgage-free boathouses and full-time paid coaches, reminiscent of US varsity squads, while others struggle on with borrowed equipment and volunteer coaches. Some active alumni networks contribute thousands a year, while others aren't even in touch with last year's crew.

So it is an incomplete and patchy picture emerging from our trot round the Web. Yet even just looking at standard clubs, it is obvious that membership alone is not the pricy bit of the sport. Kit, boats, racing and travel add more, with committed rowers usually forking out more than £1000 a year. And this despite the many cunning methods by which clubs raise money as painlessly as possible.

Is it worth it? If you're reading this article, you probably think so, a few times a year at least. On the last day of the training camp maybe, as you pack up the trailer, exhausted but fit and strong. Laughing over pints in the bar with your friends or at the post-regatta party. Just after crossing the line first in a tight race. And on a gorgeous mist-hazed June morning, as the sun shimmers on the water, and you take what feels like the perfect stroke, or watch from your coaching launch as your latest novice finally gets that difficult exercise. Yep, it's a pretty good sport, all told. •

Fours find good weather

Rachel Quarrell follows the season's biggest Head race

et's be honest, it wasn't the most unpredictable Fours Head ever. Not even abandoned. Things became interesting the weather intruded, with fairly good conditions and a relatively low stream after the wind and rain of earlier weeks. If you'd had to guess, before the race, who would win the two open titles, you would probably have been right. Yet despite that there were some interesting results lower down.

First off were defending champions Tideway Scullers (Cop, Drysdale, Campbell and Hennessy), chased by big rivals Leander (Hunter, Lawson, Rowbotham, Wells). Unsurprisingly Leander had to pause before Chiswick Bridge to fix a footplate problem, so that they started with a usefully large gap. This closed steadily for the first few minutes, but Scullers pulled away from Hammersmith onwards to claim victory. Reading's rising stars put in a good race, and beat London's lightweight internationals, but were still well back in third.

Much lower down the order, Marlow/Thames, aka the top GB women's composite, weren't challenged. Grainger, Winckless, Vernon and Laverick had an easy win after Tideway Scullers - including internationals Sophie Balmary (FRA) and Frida Svensson (SWE) - crashed. Leander couldn't close the gap, but Marlow/ Thames were disappointed not to finish in the men's top twenty in what may be several of these oarswomen's final serious attempt at the

Leander and Molesey bagged the men's elite sweep titles, balking Oxford and Cambridge of their first headline of the year, while Thames' internationals settled for the women's elite

coxless in the first year since the W4+ was in the men's S3 (A) class, when the late disqualification of a rather fast University of West of England crew handed Edinburgh's students the win.

A lot of coaches were wondering about the men's S2 coxless result, as Westminster's schoolboys came through a strong field as a classy outfit with racing and steering nous. However, the two independent timing systems (the usual Fours Head team were backed up by Mikrotime) confirmed that all was in order. A few weeks later the boys in pink proved it was no fluke, as three of them ended up first, second and 12th in the junior category at the Scullers Head. The other under-18 winners were Wallingford and Maidenhead in the men's and women's junior quads respectively.

Three Tideway clubs claimed welcome pennants: Barnes Bridge Ladies, Auriol Kensington and Mortlake Anglian & Alpha collecting three women's titles. Lea hooked men's Senior 1, while Imperial's Senior 1 quad included Under-23 world champion Romano Battisti and his lightweight international comrade Jose Casiraghi.

Penalties were applied with vigour, including quite a few 2-second handicaps for boats which didn't have proper Tideway ID. The biggest problem was as usual undeclared substitutions (16), though there was some comment later about the OARA system possibly not permitting or confirming various changes. It is unclear if these were readl problems or user error. 26 crews went for time-only results after admitting rule infractions before the event.

Ashford, Rodford, Knowles); Women's S2 Barnes Bridge Ladies 21-52.33 (Hall, Sonnemann, Van Hoorn Alkema, Guiniven).

« (from p6) also contributed.

The two-story structure has red oak doors and diamondpaned windows beneath a cantilevered roof on the first floor. The boathouse was built exactly as drawn — though planners toyed with the idea of widening the lower-level doors to better accommodate the shells. Puttnam would not allow this, so boats must be canted to get them through the doors. Sharon Courtin, executive director of the boathouse corporation, says: 'It's very much in the Prairie style, but it's also beyond the Prairie style because it's the first time Wright lowered the hip roof and made it a flat slab roof. It has a much more modern feel to it than a lot of his other Prairie architecture of the same era.' The West Side Rowing Club will run some of its programmes from the new 5,000-square-foot space.

Let's hear it for Mallory and

In case you missed it, there is a new theory that two rowing men, George Mallory (Magdalene, Cambridge) and Andrew Irvine (OUBC) actually did reach the top of Everest before perishing on the mountain in 1924. Graham Hoyland, an Everest climber and mountaineering expert, believes that the two men climbed to the top via the Third Step, a much easier route than the Second Step where a member of their team reported last sighting them. Mallory's body was not found until 75 years later.

Let's hear it, too, for Sir Steve Redgrave and Sir Matt Pinsent who came top of sport category of the world's most inspiring partnerships, in a poll of 3,000 business leaders.

From Thunderer to Whimp

Just as James Murdoch takes over control of the tabloid Times from his daddy Rupert, so the former Thunderer has given up rowing. Mike Rosewell has been told to hang up his pen, in common with several other sports correspondents. Don't let anyone tell you again that space isn't lost when broadsheets go miniature. John Goodbody, the former sports news editor, who has a keen interest in rowing, took early retirement last summer, so the axed

«Rosewell will be the last in a great line of rowing correspondents at the former paper of record. During the last 50 years the chair was occupied by the late Richard Burnell, Doug Calder, and Jim Railton before Rosewell. I fear that the Whimperer will not be the last paper to reduce its interest in sport which is not played with round balls, never mind that rowing is one of Britain's top three Olympic sports.

Dave's in a spin

Glad to see that the Guardian puts David Cameron's 'svelte new physique' down to his PR machine rather than his rowing machine. I thought he was in denial about spin.

Book end

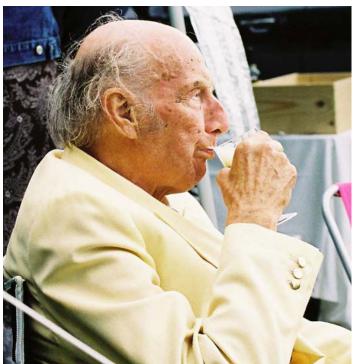

Fans of the Thames — don't rush out and buy Peter Ackroyd's latest, Thames. Sacred River, even at the huge Amazon discount. It's not in the same class as his other history books, and a visit to the River & Rowing Museum will give you the information in half the time at half the price. Then if you still want a tame read, buy the book there! Which reminds me that the museum is showing a cracking exhibition of Taunt's Victorian Thames photos twinned with today's views of the same, also the subject of a new book.

Parting of the waters

Robert Treharne-Jones has parted company with the press office of Henley Royal Regatta which he has run so well since he succeeded George Lawson a long time ago. That's the same Treharne-Jones who commentates at FISA regattas, the same Treharne-Jones who organises the Henley Boat Races, and the same Treharne-Jones who is press officer for Leander Club. I suspect that 'clash of interests' may be the cause of the regatta's gentle shove, particularly the last mentioned. On the bright side for the good doctor — for the same Treharne-Jones is also a qualified GP although currently performing IT services for docs rather than doctoring himself - is that the regatta does not pay its press officer, whereas the Pink Palace does. T-J will be a hard act to follow at Henley.

All change at the Boat Race, too, where the Boat Race Company has cut loose Matchtight who have run »

ENCLOSURE IN THE SKY

Tideway Scullers put up a tributes page, from which these comments are taken.

"How many of us wouldn't have joined TSS without his initial interest and encouragement? He asked for very little in return other than a smile and the odd cup of tea"

"He was down at the river 360 days of the year until his health forbade him" "A true bastion of British sculling..." "...always happy to turn a blind eye when the boat race post was painted..."

"a very special character who will be sorely missed but never forgotten up and down the river"

"Alec was our patriarch for fifty years - his spirit will always be with us and on the water"

"out every weekend with groups of lucky young persons half his height and 1/10th his age all morning in a double and a quad"

"he always had a spanner to lend and helpful advice to give"

"Alec, guaranteed to be down there from 7:30 every morning with tea, donuts and a million different tools in the back of his Volvo. The very backbone of the club for several generations."

"Alec was an absolute gentleman. He was always selfless and incredibly kind to all of us. How we will miss him, dear Alec"

"An irreplaceable friend to all"

"Alec - what a legend for TSS"

"I'll miss him a lot but seek consolation in the

Alec Hodges, grand old man of Tideway Scullers School, died suddenly on Thursday 8th November 2007, while in hospital recovering from emergency surgery for an aneurysm in September. He was 80.

Alec was one of the founding fathers of Scullers, and continued to coach for many years. He took great pleasure in introducing raw novices to the art of sculling by making them row round the buttresses of Chiswick Bridge under his eagle eye.

Photo: Liz Wray.

fact that he seemed to do something he loved every day of his life for most of his life".

IN MEMORIAM

Professor Howell Peregrine, formerly of Bristol Ariel, in March 2007 after a short battle with cancer.

Chris Lewis of Cantabrigian, on 19th May 2007 after a lengthy illness.

Bill Richardson of Bradford on Avon on 21st May after a sudden illness.

Mary Collins of Clydesdale RC on 10th June after a long illness.

Scilly Isles rower **Nathan Woodcock**, aged 23, of a heart attack after a gig race in July.

Bill Helps of Sons of the Thames, peacefully at home on 5th September 2007.

David Hardy, OUBC/OULRC/Radley former coach, on 3rd October after a long illness.

Doug Turner, long-standing member of Durham Amateur, on 16th October after cancer. **Ted Bell** of Vesta, Molesey, Staines and the Skiff Association, in October 2007.

Ken Cripps of Kingston RC, on 23rd October, aged 98.

Gabby Tolkien, of Evesham and Upton, in October after a short illness.

Bill Ogden, formerly of Abingdon School and Jesus College Cambridge, in October.

Alec Hodges, grand old man of Tideway Scullers, suddenly on 8th November.

Graham Duffy of St Andrew BC on 3rd

Graham Duffy of St Andrew BC, on 3rd December.

Obituaries for any of the above, or other departed friends, are invited. •

Going from 'are' to 'wannabe'

Terry O'Neill looks at the principles of assessing athletes and planning training

If I were asked to define training, I would say it is the technical, physical and mental preparation to complete a task. If knowing the task is the first step, then the next consideration is the current condition of the athlete. With these two pieces of information you know both where you are and where you want to be. A training programme is a map to get you from one to the other.

There have been huge advances in identifying the physical demands of the sport and ways to train the body to meet them. Training courses are now available to coaches enabling them to develop an understanding of different training methods. Most research has concentrated on high-level performance, and it is not always apparent how this applies to athletes at club, school and college level. As a result, some coaches return from a course and attempt to implement a regime that, although perfectly ok for the national team, is inappropriate for clubs and colleges.

An example of this occurred when a college boat club captain was speaking to a member of the national team. He asked how much distance they rowed in an average week and the reply was about 150-200 kilometres. The captain returned to his college to implement this regime, but his crew was only able to row at weekends, and so the result was a total disaster.

The aims and structures of national teams are diametrically opposed to those of a club. A national team is an exclusive group with the sole aim of identifying the best and eliminating the rest. A club is an inclusive organisation with the aim of treating all its members equally, regardless of ability.

You cannot copy someone else's programme, especially if that programme was written for a group of athletes whose abilities bear no relation to those you are responsible for. A programme is

Table 1

Athlete	Training
Low skill/	Low intensity/
poor condition	short duration
High skill/	High intensity/
poor condition	short duration
Low skill/	Low intensity/
good condition	long duration
High skill/	High intensity/
good condition	long duration

a plan of action that the coach writes to bring about improvements amongst his charges. As time goes on it will be modified either because it is not delivering what the coach expected or through circumstances beyond his control, such as illness or injuries to the athletes. What is actually done can vary from the original programme by 25-30 per cent, and so in itself the programme is of little use.

Although it would make more sense to see the training diary of an athlete which tells you what he or she actually did, this information is of little use either because there is no guarantee that the regime would work for anyone else.

There are several fundamental principles of training, and the first and most important is that it must meet the needs of the individual. Therefore the first and most important job of the coach is to identify what those needs are.

The training sessions have to provide a systematic combination of quality and quantity that allows positive adaptation to take place. This requires due consideration to nutrition and adequate sleep and rest.

ere we will concentrate on the physical and technical requirements of competitive rowing.

The tools available for training are a combination of duration and intensity to practise the various elements of the task. Now we must identify the needs of the athlete and put the two together. The athlete's needs will be further development of skill, physical condition or both. If we take as an example a college boat club at the beginning of an academic year, new recruits are likely to display low skill and poor condition, while returning third year students may have high skill but poor condition. So the training required to meet individual needs will differ according to Table 1 (below left).

To be really effective, a programme has to be written to meet the needs of the individual. The table is a broad outline but you need to look more specifically at the different aspects that make up the condition of the athlete.

Rowing is an expression of power endurance. To simplify matters, you can consider four areas that constitute condition — maximum power, anaerobic capacity, specific aerobic capacity and endurance.

o Maximum power can be determined by doing a 7-stroke standing start on the »

« the race's press service in favour of Sports Impact. But Matchtight and the matchless Caroline Searle are still in charge at GB Rowing, and apparently Sports Impact are hoping to hire the services of several Matchtight staff for the Boat Race week itself.

That centre for excellence Wallingford is without a high performance coach after severing their link with Roy Dauncey. Dauncey is now working full-time for GB Rowing in charge of the Marlow Sporting Giants centre for women recruited in the summer initiative to find lofty future rowing stars. The other two women's Giants centres, at Manchester and Bath, are being run by Hamish Burrell and Paul Stannard respectively.

Olympics on Todd

News that the Shunyi Olympic rowing course in Beijing has dried out since August's trial event, the world juniors champs, comes as no surprise to followers of the Chaobei river which is supposed to feed it, but has run dry for the past nine years. Too bad that indomitable Ozzie M2-Ginn and Free are planning an orientation camp there at about this time — although they will be used to the dry regatta at Henley-on-Todd in Alice Springs. Water is being diverted to the Chaobei from the Wenyu river, a distance of 8 miles at enormous expense. But there is another solution for the Olympic regatta, as our picture shows. It could be switched to the moat of the Forbidden City in deeply polluted downtown Beijing. It's a bit of a slalom, but by dynastic command, it never runs dry. Or a giant bucket chain from the Forbidden City to Shunyi could be arranged, using a couple of million volunteers

Who does he think he is?

Josef Haydn writes: And the spirit of God moved on the face of the water. And God said 'let there be light'; and there was Sir Matthew Pinsent. (Courtesy BBC Archives)

FISA ROUND-UP

Sighs of relief all round at the FISA Congress, as Bled beat Lucerne by 108 votes for the right to hold the 2011 world championships, which will double as the Olympic qualification regatta for London 2012. Nothing against Lucerne, a gorgeous lake and very fair course, but it is already the only venue to be visited at least once a year by FISA events, and it last had the worlds in 2001, when Messrs Pinsent and Cracknell won 2+ and 2- gold two hours apart. Bled is also a natural lake, though much wider, and hasn't hosted a world championships for 20 years. The Dutch earned themselves visible FISA brownie points by dropping their Amsterdam bid out of the race and leaving Slovenia and Switzerland to it. In a curious twist a few weeks after the Congress it was announced that this year's final Olympic qualification regatta cannot be held in Lucerne after all. Cue a switch between the 2nd and 3rd World Cups, so that Lucerne will now be in late May, with Poznan doing the double (Olympic qualifying plus World Cup) in June 2008.

The next few years:

2008 — World Cups Munich/
Lucerne/Poznan, Olympic
qualification Poznan (Poland),
Under-23s Brandenburg (Germany), Juniors & Non-Olympic
Worlds Linz (Austria), Olympics
Beijing, World Masters Trakai
(Lithuania), Europeans Schinias
(Greece), Paralympics Beijing.

2009 - World Cups Banyoles/ Munich/Lucerne, Under-23s Racice (Czech Republic), Juniors Brive (France), Worlds Poznan, Europeans Brest (Belarus), World Masters Vienna (Austria).

2010 - World Cups Bled/Munich/Lucerne, Under-23s Brest (Belarus), Juniors Racice, Worlds Karapiro (New Zealand), World Masters St Catharine's (Canada).

2011 - World Cups tbc, Under-23s tbc, Juniors Dorney (GBR), Worlds Bled (Slovenia). ● « Concept2 ergometer. With the monitor set to display watts, record the average watts over the 7 strokes.

- o To determine anaerobic capacity, set the monitor on the Concept2 to 1 minute and record the average power in watts rowed flat out.
- o Specific aerobic capacity is determined by the time taken to row 2000m on the Concept2, recording average power.
- o Endurance is determined by rowing 5000m on the Concept2, again recording average watts.

Experience has shown me that a relationship between these four points can be drawn amongst good well trained rowers which is:

- 1. Take the average maximum power of the 7-stroke test as 100%.
- 2. Average anaerobic power measured over 1 minute should be 92–98 per cent.
- 3. Specific aerobic capacity measured over 2km should be between 55 and 65 per cent of average maximum power.
- 4. Endurance measured over 5km should be between 45 and 55 per cent of average maximum power.

Table 2 (below) gives example measurements taken from a fictional club eight using this system. These results can be analysed, to show you which athletes need to work on specific areas. From this you can begin to plan a training programme for them.

Analysis of Table 2:

Max power: poor KL; below average CD; average OP, MN, EF, AB; good IJ; excellent GH

Anaerobic capacity: poor OP; below average CD; average KL, MN, EF, AB; good IJ; excellent GH.

Specific aerobic capacity: poor none; below average MN; average EF, GH, KL, OP; good AB; excellent CD.

Endurance: poor MN; below average GH; average KL, CD, EF, OP, IJ; good AB; excellent none.

process called 'progressive overload' stimulates adaptation of the body and improves condition by gradually increasing the load to a level beyond that normally tolerated.

Using a systematic approach for the athletes displaying anaerobic weakness, training will be biased towards sessions involving short intervals and lactic tolerance. For those displaying aerobic weakness, then emphasis should be placed on distance work and intervals at race pace. Strength training is most effectively dealt with through weight training.

Even though the aim may be to produce an eight, some training will take place in small boats. By training athletes with similar requirements together in small boats, individual needs can be addressed without detriment to the group as a whole.

Table 2: an example of measurements from a typical club squad

Name	Max power (Watts)	Anaerobic capacity 1min	Sp. aerobic capacity 2km	Endurance 5km

BUSA and BUR bust-up

A series of upheavals occurred in BUSA, the British University Sports Association, during the recent term. Disagreements over the 2007-8 selection within BUR (British University Rowing, which runs student teams representing GBR internationally), eventually resulted in long-time BUSA head of rowing, Nigel Mayglothling, departing the central organisation. Below are summaries of two letters issued at the time:

30th October 2007, BUSA Chairman Phil Attwell writes to all the British university sport captains and athletic union representatives,

He confirms that following the 25th October Executive Board meeting of BUSA, ARA (*ie* GB Rowing) format trials would be used to select GB student teams for the foreseeable future.

Mid-November 2007, Nigel Mayglothling explains his and the other BUR directors' side of the story to BUSA Midlands. This is a summary.

e points out that there have been problems over the selection of BUSA rowing teams since at least 2002, when rowing's SMG hosted FISU at Nottingham.

Complaints mentioned include athletes being removed by GB Rowing (the international branch of the ARA), or made unavailable for FISU and EUSA events, and worries from many university coaches about the lack of openness in the selection policy. He adds that in 2006 the selection of several FISU crews invited to closed trials "almost regardless of their performances in open competition", which resulted in the SMG refusing to endorse that year's selection process.

In September 2007, after consultation, the rowing SMG put forward a draft selection policy, which Mayglothling says differs in several respects from the GB Rowing-led student selection policy. These differences include trialling in sweep/scull by choice; no registration for GB selection required (since the only event under consideration is the FISU World University Championships)s; attendance at BUSA events required for selection; no midweek or mid-exam trials, and no trialling until the BUSA Small Boats Head, including for immediate alumni (termed 'year down' athletes).

Mayglothling then describes the situation getting out of hand when BUSA staff met with GB Rowing to agree a different policy, despite two requests from the rowing SMG within the previous year. He adds that he was given less than 48 hours notice by the Chair of BUSA (P Attwell) before this ARA-led policy was released

Nigel Mayglothling and BUSA have decided by mutual agreement that he will step down from the Chairmanship of the BUSA Sports Management Group for rowing, since his dual role as SMG Chair and BUR director could be perceived as a conflict of interests.

A review of BUSA rowing will be undertaken, and Fiona Rennie will become interim rowing SMG chair, with a revised programme being issued shortly.

he immediate effects of these manoeuvres were for all 2007-8 BUSA dates to be cancelled, though the BUSA Regatta dates and venue have since then been confirmed for May Bank Holiday weekend in Glasgow. Below are the points made by Nigel Mayglothling on behalf of himself and the other BUR directors.

without any consultation. This led to problems with the timing and venue for the BUSA Small Boats Head, which BUR offered to host in Nottingham.

He decries the BUSA Executive's failure to discuss the overruling of a consulted and advised SMG policy, at their October 25th meeting, and their suspension of BUSA's rowing programme. After describing the involvement of the volunteers of BUR for the last 7 years, he adds the following:

"I have no qualms, I am not able to serve on the Board of any Association whose policy I could not support in public 100% so to continue as a Director (especially the one responsible for BUSA being open and transparent) would have been more than hypocritical, so my resignation on the principle of respecting and maintaining student-led policy was an inevitable consequence."

Points are made about the timing and organisation of the BUSA Small Boats Head, BUR'ss financial support of BUSA rowing after 2002, and the organisation of BUR to benefit its members. Mayglothling praises the new interim SMG Chair (she is also the Tennis SMG Chair) but points out that credibility with rowers is zero. NM will not risk funding BUR events without BUSA support, so releases all the BUSA rowing dates. The entire original SMG has now stood down.

He concludes: "The personal decision to leave BUSA after 15 years volunteer service was not one taken lightly and one I regret having to take, but the core principle of student-led policy is key to me and ... clearly also to many of my volunteer colleagues."

IN THE ALTOGETHER

It's winter, it's bitterly cold, but clubs are still getting their kit off for a good cause, namely fund-raising. Nudey calendars, mostly tasteful, are popular ways of entertaining the troops while earning a bit of cash, and this year Staines BC (example below) and Bournemouth University are the two boat clubs bravely taking the plunge.

However, they have been outdone by DC Strokes (Washington DC, USA), who have so many hunks in their club that they have been able to produce a full two-year 2008-9 calendar entitled "The Men of Strokes". It is now selling like hot cakes all round the USA.

PUFFIN FOR MUSEUM

Puffin, the 15-ft boat in which Graham Walters crossed the Atlantic from east to west in 2006, has been donated to the River & Rowing Museum. David Johnstone and John Hoare designed Puffin for their west-east crossing in 1966, a voyage that turned to tragedy when the two rowers were lost at sea. In the same year, Chay Blyth and John Ridgway became the first to row the Atlantic in the twentieth century. Meanwhile, Puffin was picked up by a Canadian warship. Forty years later, restored and manned by Walters, it completed its voyage.

TIDEWAY TRIALS

The seasonal offerings from the Light and Dark Blues trial eights gave 2008 Boat Race umpire John Garrett trouble, with both winning coxes interpreting the definition of the stream rather liberally.

On Tuesday 11th December Duncan Holland put his Cambridge crews out, He lacks Kieran West for the first time (Holland says the Olympic champion has finally fallen foul of the Rankov Rule, having completed 4 undergraduate and 4 graduate years). The two crews stayed fairly well glued to the Surrey side of the river for the first two miles, giving Rebecca Dowbiggin's Middlesex-side crew, 'One Night Stand', more stream and the chance to row 'True Love' down around the outside of the Hammersmith bend.

The next day Oxford inverted the approach, veering close to the Fulham Football Ground, so that 'Skins' on Middlesex squandered what came near to a length's lead. The difference? Winners 'Shirts' busted past their opposition fast at Harrods, while the Light Blues race was tight for 3 miles. Oxford's time was faster, but on better stream, though they also showed better recovery when the rhythm slipped. •

Magic Drysdale turns Silver to Gold Peter McConnell reports from Italy.

ver 500 single scullers from around the world assembled in Turin, Italy over the weekend of 10/11 November for the 16th Silverskiff and Kinderskiff races hosted by Reale Società Canottieri Cerea on the River Po.

Raced over 11,000 metres including a 'hand-brake' turn around a buoy after 5.5km, the Silverskiff has been won in recent years by Juri Jaansen, Olaf Tufte and Mahe Drysdale. This year saw Drysdale return to defend his title, joined by Itzok Cop, Italian world champion lightweight Elia Luini and over 300 other hopefuls.

Setting off in perfect conditions on a bright autumn morning Drysdale was first out of the blocks racing upstream over a difficult twisting course through three bridges before turning just prior to Moncalieri Island to return on the downstream leg.

Make no mistake this is a hard race, taking 40-plus minutes for the internationals and well over that for mere mortals. Yet the large entry at all levels from junior to veteran H speaks volumes about the friendliness and helpfulness of the organisers, with many athletes from across the globe returning every year.

Alongside the Italian clubs were scullers from France, Switzerland, Sweden, Germany, Serbia, Slovakia, Spain, Mexico and USA. The largest contingent from the UK came from Upper Thames Rowing Club with 14 athletes ranging from junior women to veterans.

Beating his previous and the course record by 14 seconds Drysdale again showed why he is currently the best sculler in the world. His time of 40 mins 18.53 secs outpaced second placed Luini by 53 seconds and meant that he walked away with 800 euros in gold coins for winning the race and a further 1000 euros for setting a new record. Cop faded after a fast first leg to come in sixth.

In the women's race there was no Ekaterina Karsten, the last three years champion leaving the field open to the top US sculler Michelle Guerette who won by nearly two minutes from German junior Mareike Adams in a time of 44-01.71.

Upper Thames lightweight Will Hoodless, who gets to be beaten by Drysdale every year at HRR, was the first Britain home at 34th in the overall standings and while the same club's Anna van Leemputten was close to a medal with 4th in the women's lightweights, Britain's only real success was Christy Jobb from Wallingford taking the women's Veteran B title in a time of 52-08.6

The Kinderskiff for juniors aged 14 and under is raced the previous day over a shorter 4km course. The only British junior sculler, 12-year-old Sam Mottram from Upper Thames was a very creditable 38th out of a field of 240. ●

RANT

Tales from the River Bank

Living on the river bank of the Thames, I see a lot of rowing activity. Most of it is fun to watch, but too often I see rowers going on the water when they most definitely should not!

The past year has been one of the most frustrating for rowers, with rivers frequently 'red-boarded' - but many rowers seem to think they are above the law. My understanding is that when the river is on 'red' - there is to be no rowing - by ANYONE, and when it is on red/amber

- only experienced crews are allowed - with suitable back up.

It seems that the word 'experienced' is frequently misinterpreted (and some crews even ignore the red board). Looking at the ARA water safety guidelines, they say a risk assessment should be carried out before an outing. This shouldn't just be - 'oh, the water doesn't look that bad, and I've been rowing for 2/3/4+ years, and we have a coaching launch, so I'll be fine', it has to be a whole lot more.

Here are just some of the things that need to be taken into account - and from what I have seen, most definitely are not:

- 1. If the crew capsizes are they all genuinely able to swim and are they suitably dressed to survive the conditions?
- 2. If a crew member is incapacitated, are the rest if the crew fit and able to assist?
- 3. Is there a support boat?
- 4. Assuming there is a support boat, can it actually operate as a rescue launch? Many of the boats used for coaching come close to capsizing when trying to take 'swimmers' on board.
- 5. Do the rowers really understand the ramifications of the risks when they go out on the water in 'hazardous' conditions?

Yes - we all want to get as much water time as possible - but should that be at the risk of life? That may sound dramatic - but death is pretty dramatic! Apart from that risk - what about the impact on your nearest and dearest? And - if the information I have been given is correct - did you know that your committee would be liable if there were an accident when you are out on the water - even though the committee had posted the red board sign, and you chose to ignore it?

As we continue the the winter season, lets be more sensible about our decisions. Make sure your club is known for the success of its crews, rather than the one where there is a tragic accident.
